

## LSI Awarded Prime Position On \$100M CDC Center For Preparedness And Response (CPR) BPA

**Washington, DC – October 30, 2019** – LSI, a leading provider of IT solutions and professional services to government organizations today announced that it will provide technical service support for the Centers for Disease Control and Prevention (CDC) Center for Preparedness and Response (CPR). This five-year, multi-award blanket purchase agreement is valued at \$100 million per awardee.

“This new contract award substantiates our performance as an IT solutions and professional services provider and positions us to support all CPR divisions and offices in strengthening the nation's health security and protecting against public health threats.” said Keith Cromack, LSI Sr. Vice President Business Development. “We look forward to helping CPR achieve its mission objectives - bringing together subject matter expertise with strategy, analytics and technology solutions to tackle our most pressing national health issues.”

### **About CDC Center for Preparedness and Response (CPR)**

The CDC Center for Preparedness and Response (CPR) has primary oversight and responsibility the CDC's public health preparedness and response portfolio. Through an all-hazards approach, CPR helps prepare for and respond to urgent threats to the public's health. The functions of CPR include overall coordination, oversight, and accountability of emergency response activities throughout CDC, as well as within the States and communities.
