

CDC Center for Preparedness and Response (CPR) Awards Task Order to LSI in Support of Emergency Risk Communication Branch (ERCB)

Washington, DC – April 15, 2020 – LSI, a leading provider of IT solutions and professional services to government organizations, today announced the award of a contract with the U.S. Centers for Disease Control and Prevention (CDC) to support the Emergency Risk Communications Branch (ERCB). This five-year task order was awarded by the Center for Preparedness and Response (CPR) and will provide emergency risk communication, clearance processing and triage, and communication response tracking.

“LSI is proud to support the important work of the CDC and the Center for Preparedness and Response (CPR) as they carry out their mission to safeguard our nation's health security.” said Keith Cromack, LSI Sr. Vice President Business Development. “We have assembled a broad and experienced team committed to applying proven processes and technical expertise as we provide cost-effective solutions to the mission of Emergency Preparedness and Response.”

About CDC Center for Preparedness and Response (CPR)

The mission of the Center for Preparedness and Response (CPR) is to safeguard health and save lives by providing a platform for public health preparedness and emergency response. Through an all-hazards approach to preparedness, focusing on threats from natural, biological, chemical, nuclear, and radiological events, CPR helps the nation prepare for and respond to urgent threats to the public's health.
