

LSI expands its support of the U.S. Centers for Disease Control and Prevention (CDC) to Provide Technical and Instructional Design and Graphics and Communications Support Services

Washington, DC – September 3, 2020 – LSI, a leading supplier to government National Security and Public Health and Safety missions, today announced the award of two contracts with the U.S. Centers for Disease Control and Prevention (CDC). Awarded by the Center for Preparedness and Response (CPR), Division of State and Local Readiness (DSLRL), these task orders support updating and redesign of Strategic National Stockpile courses, intranet web design, SharePoint administration and page design, and Section 508 compliance.

“LSI is proud to help meet the public health emergency response needs of the Division of State and Local Readiness (DSLRL) in a way that minimizes time, money, and effort.” said Keith Cromack, LSI Sr. Vice President Business Development. “We continue to expand our experienced team, committed to proven processes and technical expertise as we provide cost-effective solutions to the mission of Emergency Preparedness and Response.”

About CDC Center for Preparedness and Response (CPR)

The mission of the Center for Preparedness and Response (CPR) is to safeguard health and save lives by providing a platform for public health preparedness and emergency response. Through an all-hazards approach to preparedness, focusing on threats from natural, biological, chemical, nuclear, and radiological events, CPR helps the nation prepare for and respond to urgent threats to the public’s health.

About LSI

LSI is a mature Service-Disabled Veteran Owned Small Business (SDVOSB) providing large company capabilities with the agility and flexibility of a small business. LSI understands the importance of a solid business infrastructure and offers disciplined management processes with CMMI Level 3 and ISO 9001:2015. We serve the National Security and Public Health and Safety missions of HHS, DHS, DOJ and DoD and the US ARMY - providing public health staff support, program management, cybersecurity, and enterprise IT solutions.
