

## **CY 2022 Greenhouse Gas Emissions**

Logistics Systems Incorporated (LSI) measured and established a baseline of our greenhouse gas emissions for Calendar Year 2022 for all facilities leased and controlled by the company.

LSI's GHG emissions report provides measurement of our Scope 1 and Scope 2 emissions for CY 2022. LSI attests that the Scope 1 and 2 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard.

In calendar year 2022, LSI's Scope 1 and 2 emissions measured approximately 0.679 metric tons CO<sub>2</sub>e. The entirety of LSI's emissions are from the electricity and heat used in the facilities we lease, which is commercial office space.

## 2022 GHG Emissions Data
